

## CONSULTANCY AND R&D POLICY

- Individual or group of faculty members/ students is encouraged to undertake R & D project. Management of GGI may provide seed money up to Rs 10,000 with the approval of R&D Committee and help in applying for further grants, if required, from funding agencies.
- Faculty is encouraged to undertake consultancy and R & D assignments from institutions or industries appropriate to competence of individual / group.

The faculty shall undertake such assignments with the prior approval of the Director and information to R&D Committee.

The faculty may avail the administrative & infrastructure facilities of GGI for the same.

- The faculty can associate other faculty for working on the assignments.
- The Principal Investigator (PI) shall levy such consultancy charges on the beneficiary organization as appropriate in line with the quantity and quality of professional work involved.
- Depending upon the type of professional work involved in the consultancy project, the project may require the use of institutional facilities such as testing on the institutional equipment, etc (Type I project) or may not require the use of institutional facilities (Type II project).
- PI (and his team) will share the consultancy amount with GGI in the ratio of 70:30 for Type I projects and 80:20 for Type II projects.
- The member of staff associated in the project shall be paid honorarium by the PI appropriately from the consultancy amount, on approval of Director /Principal with a cap of 50% of the salary of the staff for the period of association of the staff with the project work.
- GGI will provide financial incentive of Rs 20,000/- (Rs. Twenty thousand) to faculty /team who gets patent granted for any innovation /research. There is no maximum limit on the number of patents filed by an individual /team.
