

## Alumni Feedback, Analysis, and Action Taken Reports on curriculum during the year 2020-21

29/6/21

On the basis of feedback, taken from the Alumni and reviewed at Department level, a report is hereby submitted to the worthy Director and he has given his comments on action taken report.

	<b>Feedback and Analysis of feedback</b>
	<p>The present status of Alumni was 20 % persuing higher studies, 35% got jobs, less than 5% adopted entrepreneurship and 40 % adopted other works. The mathematical subject was considered crucial for most of the Alumni. The English language helped to improve the communication skills. The elective subjects enabled them to become moderately strong to very stronger. The course curriculum made them moderately to equally balanced in knowledge. The subjects in successive semesters were as per the current need. The time given to credit hours was primarily as per the requirement. The text and reference books were found sufficient in number to meet the curriculum needs. The practical covering was done whose infrastructure was there and general opinion was good and in few it was partial. The students very much agreed with internal evaluation. The students do agree that only relevant topics were taught beyond syllabus. Mixed response was observed about curriculum studied to meet the Industrial requirements. Some were of the opinion that only technical part was highlighted. In any other heads, more focus was given to strengthen the practical parts/knowledge.</p> <p>The worthy Campus Director suggested HODs and IIC Department to invite more entrepreneurs to the campus to interact with the students and to encourage to take up entrepreneurship.</p>
